Display Screen Equipment

The Health and Safety (Display Screen Equipment) Regulations 1992 came into effect from January 1993 to implement an EC Directive.

They require employers to minimise the risks in VDU work by ensuring that workplaces and jobs are well designed. This course has been designed to take into account those people both at work and those working from home.

Topic areas covered

- Discover the background and the need for minimum requirements
- Introduce and discuss the Regulations
- Examine what has to be done to implement the requirements in your company
- Establish your legal obligations and responsibilities
- Examine methods of hazard identification and assessment
- Enable DSE assessment to be carried out

Target Audience

Managers, Supervisors and staff who use 'Display Screen Equipment'

Aims

To develop an understanding of Display Screen Equipment, the potential for injuries to occur and the preventative measures available.

Learning Objectives

On completion of the training, successful candidates should be able to:

- To ensure employees can use their VDU and workstation safely.
- To understand the causative factors and the control measures that may be adopted to reduce the level of risk, such as arrangements for breaks etc.
- To create an awareness of the need of correct posture
- To understand the fundamental requirements of The Health and Safety (Display Screen Equipment) Regulations 1992

Course Duration

½ day (3½ hours)

Certification

On successful completion of the course you will receive an attendance certificate.
